WHY DONATE?

Shared Harvest food bank supports seven food pantries in Warren County that help the 11,885 people that are living in poverty. By contributing to this project you are also supporting the youth in 4-H to learn about raising a quality protein product. These youth are also developing many life skills such as respect, resilience, hard work and more.

Warren County Farm Bureau is teaming up with Shared Harvest Foodbank to fight hunger in our community by putting 4-H raised pork on the plates of families in Warren County.
